

Are You Sharp Enough?

Courses to Keep You Sharper than the Rest

Our Learning & Development (L&D) experts partner with you to develop learning solutions that include industry best practices and relevant, hands-on experience. Our programs help individuals meet professional development goals and assist organizations in meeting business needs.

What We Offer

We offer program and project management PMI®-based commercial-off-the-shelf (COTS) courses facilitated by expert project managers with real-world experience. Course topics include *PMBOK® Guide* theory, Microsoft® tools, Agile, and Leadership development.

Our L&D programs offer training via multiple platforms including classroom, video, teleconference, and web-based. To create tailorable and accredited courses, we use the instructional systems design (ISD) ADDIE model. Our team coordinates the implementation and evaluates training program success using the Kirkpatrick methodology.
