

CMMC

A Critical Time to Prepare

The Department of Defense (DoD) released the Cybersecurity Maturity Model Certification (CMMC), Version 1.0. To continue work with the government, companies must be certified at an appropriate level of maturity against the CMMC. Many companies need help determining where to start.

Our quick look approach is designed to be affordable and provide you with exactly what you need to do in preparation for a CMMC audit.

QUICK LOOK ASSESSMENT APPROACH

4 Steps to Prepare

Our interactive questionnaire guides you through the information about your current cybersecurity program

Edwards assessment experts analyze the results and determine your gaps

We develop and deliver a prioritized roadmap of projects for your organization to fill the gaps

A consultation with CMMC experts provides tailored consulting

Your Guide for Compliance

We provide a 60 minute consultation with our CMMC experts to answer questions and outline your next step toward compliance. A Facilitated Quick Look offers up to 32 hours of CMMC consulting support, based on the Level.
